Skills

- Ethical Hacking | C++ | Python | Cloud Computing | Cyber security | AWS | SOC | Azure

Training and Workshops

Training at Garhwal Rifles Lansdowne (SLOG Solutions Pvt. Ltd.) November 2023

- Gave 3-days cybersecurity training at Garhwal Rifles Lansdowne, and backed by a stellar letter of recommendation from SLOG Solutions Pvt. Ltd.

Training Program On Ethical Hacking (OneBytelabs) November 2022 – January 2023

- Completed a rigorous 90-hour program with 100% hands-on labs, specializing in network security, penetration testing, and earned a recognized certification in Ethical Hacking.

Education

Sagar Group of Institutions (SIRT Bhopal), India 2020 - 2024

- Bachelor of Technology (B.Tech) in computer engineering | CGPA: 7.97/10

Scope Public School, MP 2018 - 2020

- MPBSE (Class XII)

Kendriya Vidyalaya, MP 2017 - 2018

- CBSE (Class X)

Projects

Dark web Crawler and Scraper September 2023

- Developed and executed a high-powered dark web crawler and scraper.
- Extracted critical anonymized data from 50+ hidden web sources daily.
- Revolutionized cybersecurity intelligence and strengthened threat detection capabilities.
- Contributed to a 30% improvement in threat identification and mitigation capabilities.
- Strengthened overall cybersecurity knowledge.

Log Analytics Solution (AWS) August 2023

- Implemented a scalable Log Analytics Solution on AWS, analyzing over 10 million logs daily to enhance operational efficiency and provide real-time insights organization-wide.
- Strengthened security with advanced encryption protocols and real-time threat monitoring, resulting in a 20% improvement in data protection and threat detection capabilities.
- Achieved a notable 30% enhancement in operational efficiency through the implementation of robust security measures.

PI NAS December 2022

- Developed and executed an innovative IoT Network Attach Storage using Raspberry Pi which Enabled seamless operations in real-world scenarios, enhancing organizational efficiency.
- Drove a 20% increase in data accessibility, enhancing overall data availability.
- Optimized storage efficiency by 30%, ensuring resource utilization at peak efficiency.
- Replaced costly commercial NAS devices with a homemade solution and Resulted in a significant 15% cost reduction for the organization.
- Delivered superior performance and Realized cost savings of 50%+, providing a cost-effective storage alternative.

Certifications And Publications

- Microsoft Certified: Azure Administrator Associate (Az-104) July 2023 - 2024
- SOC level 1 (TryHackMe) April 2023
- Jr Penetration Tester (TryHackMe) April 2023
- Python: pen testing AWS (LinkedIn) April 2023
- Security and laws of Cyber/cloud Computing (IJS DR Journal) April 2023
- Certified AppSec Practitioner (SecOps) March 2023
- AWS Certified Cloud Practitioner February 2023 - 2026

Academic and Extracurricular Achievements

- 0xA [Wizard] top 1% on Tryhackme
- Volunteering at Marathon (AHIMSA RUN 2023) Issued by IIFL (JITO) April 2023
- Momento for volunteering (Hackathon Codebite 2k23) March 2023
